Subject: Nevada Water Grab

We have had homes in Beaver Dam for about 12 years. We (a total of six of us on the well) are concerned about the attempt of a private party and the Virgin Valley Water District to take the estimated 14,000 acre feet of water from the Beaver Dam wash each year. Our well is approximately 150 feet deep and we all depend on it daily for both our homes and our landscaping. If the well were to dry up and require being dug deeper, the expense would be significant and in the interim we would probably loose our landscape efforts.

IT IS OUR FEELING MONEY IS THE PRIMARY MOTIVE BEHIND THIS AND THE THERE IS LITTLE CONCERN FOR THE RESIDENTS OF BEAVER DAM.

Please don't approve this project.
